Dear Mr. Weisberg:

I am glad that everything is working out well and look forward to our dinner before the doings. My home phone is 201-635-8211 and you are welcome to call me at any time.

You know, I have never seen the Zapruder and Nix movies and without a television set, I am pretty much out of touch, I guess, but the reason I do not have a TV set has a lot to do with my trying to keep the canned violence out of our home and I have rather strong feelings on the viewing of just such things as you describe in your letter because I have some naive views about the effect upon continual exposure to such material and the way it tends to brutalize people. So you need not bring the films on my account although there may be those who wish to see them. I just don't think that such films (and some friends have since described them to me,) have any particular value in a non-technical and non-legal presentation. But I leave it up to you.

With best regards.

Sincerely,

James H. Fraser
Director
